# PRAYER FOCUS

## CLIMATE CHANGE

<b>SUN</b>	Lord, we thank you for creating such a wonderful, beautiful and complex world and leaving us to be good stewards of it. Help us to understand the problems we humans are causing for our planet.
<b>MON</b>	Lord Jesus we bring to you all those disturbing changes we see happening to your Earth...the increasing temperatures, extremes of climate events and the effect these have on the living creatures and plants of the world.
<b>TUE</b>	Our Heavenly Father, please give us wisdom, both to know what we can do to improve the situation for our environment, and also to pass to you our anxieties about it. Help us to cast all our burdens onto you, as you do care for us, your creation.
<b>WED</b>	Lord we seek your help for our world politicians and scientists, that they will come to correct decisions on how to rectify the effect of past errors in our use of your world. We particularly ask for wisdom in working together against climate warming, where the richest countries are getting richer whilst those poorer nations seem to be suffering more and are more at risk of having the greater calamities: from famines; changes in rainfall; or rising sea-levels.
<b>THU</b>	Thank you for the great biodiversity of our world. Please help us to care for all your creation and recognise practices that are not as you would desire for your creatures.
<b>FRI</b>	Thank you for those local projects now taking place which are trying to reverse bad practices from the past, such as tree planting and reintroduction of native animal species. Please help us to recognise and support good projects.
<b>SAT</b>	Please forgive us for the times we have acted selfishly or thoughtlessly, perhaps in the things we buy or the lifestyle we follow. As far as it depends on us, we ask that our actions may be guided by your Spirit and that your people will have a real, positive effect on the beautiful world and people you have created.
